I dislike when a presenter tries to include every song title into a sentence just like the way children do!

It would be nice if I could get either a window sticker or even a T-shirt which I could buy to advertise the radio station.

Just a huge thankyou for helping me personally through a very difficult few years and for brightening my day each day. It is much appreciated. Music will always continue to play a massive part in my life and you help me feel good by all the cheery and upbeat songs regularly played. Thankyou very much.

What do you love about Fantasy Radio?
It's great! Plays a wide range of music so there's always something for everybody. Involved in the local community, keeping us all up to date with what's going on and supporting local acts.

What do you dislike about Fantasy Radio?
Hearing the same public information ads (check for a stroke, don't phone and drive, call the coastguard) every hour of every day does get a bit wearing, TBH. No doubt they pay the bills but when it gets to the point that they start to make people switch off (or over) then maybe it's time for a rethink?

What do you love about Fantasy Radio?

The eclectic range of music played on the station and also the fact that Fantasy Radio plays more music and has less commercials. I listen from the US and for an FM station Fantasy Radio is all about the music. And what a selection!! The US FM stations are on a loop and the listener just hears the same music over and over or a lot of talking and not much music being played. With Fantasy Radio the listener gets to hear a gamut of music. Bob Lawrence's Album Collection on Saturdays is what brought me to Fantasy Radio and from there I have a whole list of DJ's available for my listening pleasure.

What do you love about Fantasy Radio?
The variety of music, especially when you play those rarely heard hits from years ago.
Kath Dawson is simply brilliant, and a really good listener friendly dj and presenter.
Dave Englefield is also another great presenter and I would love to here more from him and him chart shows.

What do you dislike about Fantasy Radio?
I absolutely hate with passion this rule that the dj's must do their best to try and talk all over the start of every record upto the vocals. They then talk all over the end of the song too.
Sometimes, they even chuck in that stupid 'hello' halfway through the song. You could say that Fantasy radio's mission statement is "every record trashed- guaranteed "
Why oh why can we not be allowed to enjoy an intro or a song in its entirety?
The worst of it is that the chat at both ends of the songs are banalities that are repeated. Very rarely is it justified that the dj needed to talk all over the song.
Why can you do your talking in between the songs?
The time between songs is yours, take as much as you want. The songs are ours, stop trashing them.

Please try and be more professional. Sometimes/too often it moves into hospital radio territory.
